

FAERY SHAMANISM

TANTRAYA SUPPLEMENTARY INFO SHEET

Card 1: Core Lore & The Perennial Faith

Daily Focus: *Tuning to the non-physical, parallel lineage of the Fair Folk as a perennial stream of organic earth wisdom.*

THE NATURE OF THE GOOD NEIGHBORS

The Faery tradition is inherited wisdom, not fairy tale fantasy. The Sidhe or Fair Folk are an ancient, co-existing race of spiritual beings with their own working cosmology, societal laws, and parameters of interaction. Approach this current with precise respect, strict boundaries, and an unshakeable ethical frame.

KEY LINEAGE FOUNDATIONS

- **The Oral Inheritance:** Historically preserved through oral traditions, rural folklore, initiatory ballads, and classic reference coordinates (e.g., Robert Kirk's *Secret Commonwealth*, 1691; Evans-Wentz's *The Fairy Faith in Celtic Countries*, 1911).
- **The Liminal Landscape:** The Sidhe populate the "hollow hills," mounds, and cross-border locations. They do operate right here on a parallel frequency axis overlaying the wild natural world.
- **The Law of Right Relation:** Contact with the Sidhe must never be flippant or demanding. Every interaction is transactional and relational, based on mutual courtesy, reciprocity, and precise conversational protocols.

Card 2: Topography of the Otherworld

Daily Focus: Mapping and navigating the pathways, gateways, and specific domains of the Celtic multi-realm model.

REALM / DOMAIN	ESOTERIC ARCHITECTURE & NAVIGATION ATTRIBUTES
The Middle Kingdom CO-EXISTING WORLD	The dense, organic space where our everyday material landscape directly intersects with the wild subtle frequency lines of the Faery current. Activated at specific nodes like boundary paths, ancient trees, and deep wells.
Tír na nÓg LAND OF YOUTH	The legendary Ever-Living realm of the Sidhe beyond the western seas. Characterized by absolute vitality, a timeless non-aging continuum, and high-frequency energetic structures. Accessible via specialized visionary pathworking.
The Hollow Hills MOUNDS & SIDHE FORTS	Localized geometric anchor points or physical stone barrows that function as physical doors into the royal halls of the Faery aristocracy. Intensely active during planetary shifts, solstices, and thin threshold hours.
The Underworld THE DEEP ANCESTRAL GROUND	The fertile, chthonic domain where the current of the fae fluidly merges with the deep streams of the un-fragmented ancestral dead. A crucial crossroads area for shamanic soul retrieval and ancestral healing.

Card 3: Gateways, Timing & Thresholds

Daily Focus: Utilizing thin seasonal thresholds and astronomical turning points to execute safe visionary travel.

THE LAW OF THE THRESHOLD

Faery magic is essentially threshold magic. Power concentrates explicitly where lines, states, or periods intersect. Never attempt a boundary crossing without establishing an internal tether and setting a definitive timeline for your return.

THE FOUR FIRE FESTIVALS MATRIX

- **Samhain (October 31 – November 2):** The Celtic New Year. The veil thins to its absolute minimum. The dead and the fae move outward from the hollow hills. The primary gate for underworld descent and mirror divination.
- **Imbolc (February 1 – 2):** The quickening of the earth under the auspices of Brigid. Focus is placed on purification, clearing frost patterns, and consecrating ritual wells or tool components.
- **Beltane (April 30 – May 1):** The opening of the light half of the year. The Queen of May rides out. High energetic quickening across the Middle Kingdom, the primary portal for forming direct outdoor contact and treaties.
- **Lughnasadh (August 1):** The threshold of harvest. Tending to land spirits, offering the first fruits of the soil, and aligning with sovereignty current structures.

CHRONO-LIMINAL LEVERS

- **The Twilight Hours:** Dawn and Dusk are the exact geographic interfaces between Day and Night. They act as natural energetic bridges where physical constraints naturally yield to subtle mechanics.
- **The Spatial Intersections:** Interfaces where distinct domains collide, shorelines (between land and water), hedgerows (between wild and domestic), crossroads, and forest margins.

Card 4: Visionary Travel & Spirit Alliances

Daily Focus: *Entering ecstatic vision-states safely to interact with familiar spirits and secure operational pacts.*

THE UNDERWORLD DESCENT METHOD

- **1. Anchor the Physical Vehicle:** Adopt an unmoving, symmetrical posture. Settle your breathing pattern into a slow, circular rhythm. Systematically numb physical sensory input until you are completely grounded.
- **2. The Primal Tree Vision:** Visualize a massive, ancient oak or ash tree. Walk around its roots until you find a natural cavity or dark hollow extending deep down into the earth.
- **3. The Guided Descent:** Slide deliberately down through the hollow root system. Experience the transit as a smooth, backward-leaning vertical descent down through soft, fragrant earth layers.
- **4. Emerge at the Gateway:** Emerge out of the root system into a twilight landscape. Before you stands a stone gateway guarded by an ancient Warden. State your exact, pure intent: *"I come in honor and courtesy to learn the old ways."*
- **5. Formulating the Alliance:** Call gently for your Faery familiar or guide power. When they present themselves, execute a formal relational greeting. Never rush into requests; converse with impeccable hospitality.

THE LAW OF RECIPROCAL CONTRACTS

- **Explicit Terms:** All spirit alliances in Faery Shamanism are based on functional, legal-style parameters. Clearly define the exact assistance expected from the spirit (e.g., land tracking, healing work, divinatory insight).
- **The Offering Contract:** Agree on the exact nourishment or offerings the spirit will receive in exchange (e.g., fresh milk, sweet butter, clean honey, or poured whiskey).
Strict Operational Rule: Deliver offerings consistently, but withhold secondary feeding if the spirit fails to perform its explicit tasks. Clarity, not emotionalism, builds stable partnerships.

Card 5: Warding, Boundary Laws & Taboos

Daily Focus: Enforcing strict energetic insulation to prevent glamour, parasitic draining, and unintended energetic entanglement.

DEFENSIVE MATERIALS REFERENCE INDEX

MATERIAL / TOOL	ENERGETIC AXIS	SPECIFIC WARDING APPLICATION
Cold Iron	Disruptive Filter	Pure, un-forged or structural iron completely breaks and shatters Faery illusions, glamours, and energetic webs. Keep an iron key or nail in your space to instantly sever an intrusive field.
Rowan + Red Thread	Protective Boundary	Crossed rowan twigs tied firmly with bright red thread create an impenetrable shield against chaotic Otherworld cross-currents or sudden entity displacements.
St. John's Wort	Solar Shield	A powerful solar herb that dispels melancholic enchantments, "elf-shot" psychic hits, and localized field depression caused by unvetted contacts.
Fresh Spring Water	Grounding Cleanse	Running spring water immediately dissolves tracking currents or parasitic residual ties. Wash your face and hands thoroughly upon returning from any vision crossing.

THE THREE SACRED TABOOS (GEASA)

- 1. **The Taboo of the Name:** Never randomly volunteer your true, core personal name to an Otherworld entity. Utilize a functional magical working title or programmatic title to preserve your primary frequency boundary intact.

- **2. The Taboo of Food:** Never ingest or consume actual food or drink offered directly inside the deep Otherworld landscape during an ecstatic visionary transit. Doing so legally binds your locus of perception to that realm, causing severe physical fatigue or psychological displacement upon waking.
- **3. The Taboo of Secrecy:** Keep specific keys, code phrases, or secret instructions delivered to you by your Faery familiar entirely confidential. Publicly broadcasting the inner mechanisms of your alliance completely collapses the current immediately.
