TANTRAYA PLAY CARD

Dreamsign Bingo

Keep this card by your journal. Each morning, cross off any square that appeared in last night's dream. Play for fun, stay alert for patterns, and if you spot one of these signs while still inside the dream, you have found your reality check trigger.

Flying without effort	A deceased person appears alive	Text changes when reread	A room that shouldn't exist at home	A light switch that won't work
Someone's face looks wrong	Teeth falling out	Back in school or childhood home	A clock shows impossible numbers	Water appears where it shouldn't
Being chased	Can't speak clearly	An animal that talks	Falling from a height	FREE Become Lucid!
A mirror shows something wrong	An extra room appears	Déjà vu within the dream	A vehicle won't work properly	A recurring dream character
Being underdressed in public	Impossible stairs or architecture	A phone won't dial correctly	A sudden scene change / cut	Floating or weightlessness

Getting A Line Five in a row, across, down, or diagonal, means these are strong, reliable dreamsigns for you personally. Add them to your Dream Journal's dreamsign list and rehearse noticing them by day.
